Infant Characteristics Questionnaire - Retrospective Form (Bates 3/87)

These questions refer to the time when your child was 6-12 months old. Please take a moment to think back to this age. Your child was probably beginning to crawl or even walk then, and may even have started using words. Your child may have changed quite a bit since that time, so it will be important for you to try to get an image in your mind of what things were like back then.

On the following questions, please select the number that describes what your child was usually like from 6 to 12 months. "About average" means how you think the typical baby would be scored.

1. How many times per day, on the average, did your baby get fussy and irritable - - for either short or long periods of time? **TIMFUS**

1	2	3	4	5	6	7
never	1-2 times per day	3-4 times per day	5-6 times per day	7-9 times per day	10-14 times per day	more than 15 times per day

2. How much did your baby cry and fuss in general? **CRYGEN**

1	2	3	4	5	6	7
very little - much less than the average baby			average amount - about as much as the average baby			a lot - much more than the average baby

3. How did your baby typically respond to new foods? **RESFOOD**

1	2	3	4	5	6	7
always responded favorably			responded favorably about half the time, or was always neutral			always responded negatively or fearfully

4. How did your baby typically respond to a new person? **RESPERS**

1	2	3	4	5	6	7
always responded favorably			responded favorably about half the time, or was always neutral			always responded negatively or fearfully

5. How did your baby typically respond to being in a new place? **RESPLAC**

1	2	3	4	5	6	7
always responded favorably			responded favorably about half the time, or was always neutral			always responded negatively or fearfully

6. How well did your baby adapt to new experiences (such as in items 3-5) eventually? **ADAPT**

1	2	3	4	5	6	7
very well - always liked it			ended up liking it about half the time			almost always disliked it in the end

7. How easily did your baby get upset? **UPSET**

1	2	3	4	5	6	7
very hard to upset - even by things that upset most babies			about average			very easily upset by things that wouldn't bother most babies

8. When your baby got upset, how vigorously or loudly did he/she cry and fuss? **LOUD**

1	2	3	4	5	6	7
very mild intensity or loudness			moderate intensity or loudness			very loud or intense - really cut loose

9. How changeable was your baby's mood? **MOOD**

1	2	3	4	5	6	7
changed seldom and changed slowly when he/she did change			about average			changed often and rapidly

10. On the average, how much attention did your baby require, other than for caregiving (feeding, diaper changes, etc.)? **ATTENT**

1	2	3	4	5	6	7
very little - much less than average			average amount			a lot - much more than the average baby

11. When left alone, your baby played well by himself/herself. **PLAYALON**

1	2	3	4	5	6	7
almost always			about half the time			almost never - wouldn't play by self

12. Did your baby persist in playing with objects when he/she was told to leave them alone? **LEAVE**

1	2	3	4	5	6	7
rarely - or never persisted			sometimes did and sometimes did not			almost always persisted

13. Did your baby continue to go someplace even when told something like "stop," "come here," or "no - no?" **GOSTOP**

1	2	3	4	5	6	7
rarely - or never			sometimes did and sometimes did not			almost always

14. When removed from something he/she was interested in but should not be getting into, your baby got upset. **REMOVE**

1	2	3	4	5	6	7
never			sometimes did and sometimes did not			always got very upset

15. How persistent was your baby in trying to get your attention when you were busy? **ATTBUS**

1	2	3	4	5	6	7
didn't persist at all			would try - but would only mildly persist			very persistent - would do any- thing to get attention

16. Please rate the overall degree of difficulty your baby would have presented for the average parent.

1	2	3	4	5	6	7
super easy			OVDIF ordinary - some problems			highly difficult to deal with
